

AI WP Legal Defender | User Guide

Welcome to the enterprise-grade compliance engine. This guide will help you set up your legal infrastructure in minutes.

1. Installation

1. Download the `ai-wp-legal-defender.zip` file.
2. In your WordPress Dashboard, go to Plugins > Add New > Upload Plugin.
3. Choose the zip file and click Install Now.
4. Click Activate Plugin.
5. Navigate to the Legal Defender tab in your sidebar.

2. Configuration

- * Base Configuration: Enter your company details. These will be injected into every legal document.

Base Configuration

Company Name	Website URL
<input type="text"/>	<input type="text"/>
Support Email	Last Updated Date
<input type="text"/>	<input type="text"/>
Support Hours	
<input type="text" value="e.g. Monday through Friday, 9:00 AM to 5:00 PM (EST)"/>	
Standard Response Time	
<input type="text" value="e.g. 24 to 48 business hours"/>	

* Deep Variable Injection: Set your legal jurisdiction (for TOS) and refund window (for chargeback defense).

Deep Variable Injection

Legal Jurisdiction

e.g. Delaware, United States

Refund Window (Days)

30

* Compliance Toggles:

Compliance Toggles

GDPR/Pixel Tracking

User Accounts System

☐

Product is Digital

☒

* GDPR/Pixel Tracking: Enables tracking disclosures.

* User Accounts: Enables data security clauses for sites with login functionality.

* Product is Digital: Swaps refund terms between digital revocation and physical return policies.

* Niche Liability Profile: Select your industry to automatically inject the correct FTC, FDA, or SEC safe-harbor disclaimers.

Niche Liability Profile

Select Primary Niche

Business Opportunity / Make Money

Business Opportunity / Make Money

Health, Wellness & Supplements

Finance, Investing & Crypto

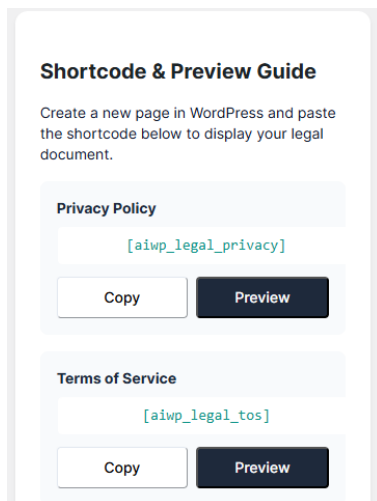

E-Commerce / Physical Goods

Software as a Service (SaaS) / Apps

Coaching & Consulting

Real Estate / Property

* Shortcode & Preview Guide

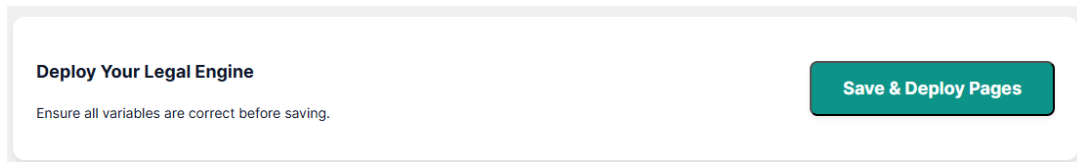

Located on the right side of your dashboard, this section allows you to manage your documents:

* **Copy:** Click the "Copy" button to instantly copy the shortcode to your clipboard. You can then paste this directly into any WordPress page.

* **Preview:** Click the "Preview" button to open a live, formatted modal window. This allows you to review your legal document exactly as it will appear to your customers before you publish it.

Deploy Your Legal Engine

Once you have configured your base settings, jurisdiction, niche, and compliance toggles, scroll to the bottom of the dashboard and click the **"Save & Deploy Pages"** button.

* **What this does:** This action securely saves your configuration to the database.

* **Instant Update:** Because our shortcode system pulls data dynamically, your legal pages will reflect these changes immediately upon saving. There is no need to manually edit your published pages after clicking this button.

3. Deploying Pages

1. Go to Pages > Add New.
2. Title your page (e.g., "Privacy Policy").
3. Paste the corresponding shortcode from the plugin dashboard (e.g., '[aiwp_legal_privacy]').
4. Click Publish.

Thanks for choosing AI WP Legal Defender!
